Free guitar chord chart topics can come in really handy. When you want to show your students that music isn't MAGIC, but there's some sense in how it all comes together, there's nothing like writing it out on paper itself – or them writing it out. Tablature and staff paper is the same way. Scroll down the page for links to the free downloadable PDFs. Scroll down the page to see download links. Maybe you want to show your guitar student another way to do a chord, or write some guitar scales. How about showing them how to do a minor chord for a seventh, or a set of power chords, or a special set of chord progressions, or ... Well, there are just a lot of reasons to have glossy guitar chord templates The page above would be a good size to show a 12-Bar-Blues set of chords (I've used it for it!) If you are after printable charts with the chords already selected the fretboards, have a look at these giant guitar fretboard chord charts, for beginners. Some very handy sheets that all my guitar students keep in their notebooks are six-chords-per-sheet diagrams that show the main families of chords (Key of C chords, Key of D chords, etc.). So for those learning to read regular notation, here's a note-by-note guide that matches staff notes to guitar tablature notes. The page below has enough space on it for a whole octave of 2-string chords (power chords). Scroll down the page to see download links. Writing fretted notes in with pencil really helps bring home to students how chords are built. It goes without saying (here I am, say it) that the children should have an understanding of the musical alphabet and how the notes on the neck of the guitar correspond to that (especially the tones missing between E and F, and between B and C). Another use for these sheets is in testing your students on their chords. Can they write in the missing notes on the right strings? Or can they circle the primary bass note of the chord? Let me know if you find out other uses for blank chord template pages!
